

ACTRON AUTOSCANNER PLUS CP9580

The new CP9580 AutoScanner Plus with CodeConnect™ and ABS displays not just the trouble code, but also can help prioritize troubleshooting with the Top Reported Fixes specific to the vehicle's make, model, year and engine at the touch of the CodeConnect hot key to "connect" with the most probable solution to the vehicle problem.

AutoScanner® Plus will indicate on screen which codes have the CodeConnect details available. Then it's a simple push of the button to get the CodeConnect information. CodeConnect is a comprehensive database of 3 million verified fixes for the trouble codes that cause the check engine light to illuminate. These actual vehicle fixes have been reported and then verified by our team of ASE certified technicians. The CodeConnect information takes vehicle repairs to another level for Do-It-Yourselfers and Technicians alike. CodeConnect provides actual fixes to the problem causing the check engine light to illuminate - providing the Top Reported Fix from the CodeConnect database. The Top Reported Fix is the most probable solution to the vehicle problem and is a shortcut for troubleshooting efforts. AutoScanner® Plus also includes domestic ABS code coverage, record and playback data stream and on screen graphing.
